Sime Darby Industrial (SDI) is one of the world leaders in the heavy equipment business. Its partnership with Caterpillar Inc (CAT), spanning over 90 years, has continued to grow and strengthen since 1929. Ranked among the world's largest CAT dealer groups, SDI also represents other world renowned premium brands including New Holland, Terberg, and Perkins.

SDI's core businesses are in the sale and rental of heavy equipment and power systems, providing after-sales product support, and developing innovative industrial solutions for customers in the mining, construction, power generation, forestry, marine, agriculture, material handling and oil & gas sectors.

Hastings Deering Group

The Hastings Deering Group, headquartered in Brisbane, Australia has 23 business service centres throughout Queensland, Northern Territory, Papua New Guinea, the Solomon Islands and New Caledonia. It sells, rents, services and supports the complete range of CAT heavy equipment used in mining, general construction, civil transport and construction, power systems, government, primary industries and marine sectors. Hastings Deering has a wide range of new, used, remanufactured or maintenance parts solutions; stocking over 232,000 lines of Caterpillar parts inventories around the 23 branches. The combination of inventory size, location and sourcing of systems means without fail parts are available quickly.

In December 2011, Hastings Deering became the first CAT dealer in the world to sell, service and support the expanded range of Caterpillar underground and surface mining equipment, after acquiring the former Bucyrus distribution business from Caterpillar.

Energy Power Systems Australia (EPSA), a Hastings Deering shareholding, is also a specialised CAT engine dealer offering solutions for marine propulsion, industrial power, electric power generation, oil and gas drilling and offshore production, rental and used engines, and generators.

Hastings Deering's Condition Monitoring Centre helps customers maintain the health of their equipment with scheduled oil sampling (SOS) services providing valuable, proactive information which assists in setting up effective, comprehensive maintenance and repair plans for equipment.

Technical and Engineering Services range from diagnosis and advice on technical product problems to the design and engineering of special machine attachments and product applications.

Hastings Deering offers a Certified Rebuild programme which means CAT equipment can be rebuilt with the latest technology and engineering for a second life.

Terra Cat

In 2019, Sime Darby Berhad acquired privately owned Gough Group Limited which has the Caterpillar dealership with service territory in New Zealand and transport and materials handling business in New Zealand and Australia. In December 2019, Gough Group Limited was rebranded to Terra Cat.

Like Tractors Malaysia, the New Zealand Caterpillar dealership has a rich history spanning 90 years, representing Caterpillar since 1929, making it one of the oldest dealerships of Caterpillar equipment outside of the United States.

Terra Cat's businesses span across the construction, infrastructure, and power system industries distributing a wide range of premium global brands in New Zealand and Australia.

The acquisition of the New Zealand Caterpillar dealership reinforces Sime Darby Industrial's footprint in the Asia Pacific region while providing exposure to the construction and forestry sectors in New Zealand.

China Engineers Limited

China Engineers Limited (CEL) was first appointed as the CAT dealer for Hong Kong and Macau in 1962. Today, CEL is the sole distributor of CAT equipment in seven provinces in China, including Guangdong, Guangxi, Hainan, Fujian, Jiangxi, Hunan and Xinjiang, employing over 2,300 staff and covering over 70 branches and facilities.

CEL caters to various industries including road, highway and railway construction, building and infrastructure development, quarrying, mining, landfill, industrial and oil & gas as well as engines, generator sets and Uninterrupted Power Supply (UPS) solutions for the electricity, shipbuilding and petroleum sectors.

CEL offers a comprehensive range of CAT heavy equipment products from earth-moving tasks, road construction and paving, to building construction. CEL Power Systems is the CAT engine specialist in the design, fabrication and on-site commissioning of prime power installation. CEL Power Systems is also the CAT marine propulsion engine specialist for marine power generation by providing its customers tailored power system packages according to their needs.

CEL's CAT engines are widely used in industrial air compressors, fire pumps, aviation equipment and the mining industry. In the oil & gas sector, CEL's CAT engines and generator sets offer reliable power for drilling, workover rigs and both living and emergency electricity. CEL also supplies Olympian type generator sets that provides clean and economical energy solution that cover prime or standby service, diesel fuel or propane and natural gas.

CEL offers comprehensive support services such as parts, service, financial options, rental and used equipment.

CATERPILLAR DEALERSHIPS

Tractors Singapore Limited

Tractors Singapore Limited (TSL) is the authorised CAT dealer distributing a full line of CAT machines, engines, generator sets and propulsion systems, lift trucks and product support solutions for Singapore, Maldives and Christmas Island (Indian Ocean). TSL's products range from earth-moving to road and building construction to paving. TSL also offers an extensive range of lift trucks from Caterpillar that are paired with their product support services which include Planned Maintenance and Total Maintenance and Repair.

TSL Power Systems division is recognised for its technical expertise in power systems solutions. In marine power, TSL is the specialist in CAT marine propulsion and auxiliary power. It is also one of the first CAT Propulsion dealers in the world to be appointed by Caterpillar Marine authorised to sell CAT thrusters and propellers.

TSL is the CAT engines specialist for switchboard design, load testing, commissioning and maintenance. In electric power generation, TSL is also the specialist in CAT marine propulsion and auxiliary power for the marine sector. TSL provides packaging solutions of CAT engines for various types of pump OEMs including FM/UL fire pumps, product transfer pumps, hydraulic power packs and air compressors.

In the oil and gas sector, TSL has a range of CAT petroleum engines which are used in jack-up rigs, semisubmersible rigs, FPSOs, FSOs, swamp barges and drilling tenders, as well as in well-servicing and gas compression applications. It is also a packager of ATEX Zone 2-compliant gen-sets for operations in hazardous locations.

TSL offers comprehensive support services which includes parts, service, financial options, rental and used equipment.

Tractors Malaysia

Tractors Malaysia is the exclusive Caterpillar dealership under Sime Darby Industrial Sdn Bhd and is a leading brand for marketing of premium heavy equipment in Malaysia and Brunei. Its partnership with Caterpillar dates back more than 90 years. Tractors Malaysia has 17 branches and four depots across Malaysia. It has a product line of more than 300 machines ranging from earth-moving and forestry equipment to road and building construction and paving that are paired with products support services including parts, services, rental, financing options and used equipment.

Tractors Malaysia operates in the oil & gas industry through its wholly owned subsidiary Tractors Petroleum Services Sdn Bhd offering power solution for both upstream and downstream activities including medium speed, high-tension and heavy fuel burning engine applications.

Tractors Malaysia's Power Systems division is the CAT engines specialist for packaged generator sets, industrial fire pumps and uninterrupted power supply system applications.

In the marine sector, Tractors Malaysia provides CAT engines specialist for marine propulsion packages, marine generator sets and auxiliary packages. The power systems team is also equipped in the design, delivery, installation, commission and handover of customised, high-end engines driven applications and power systems.

Tractors Engineering Complex, Puchong, Malaysia

INDUSTRIAL SOLUTIONS

Sime Darby Energy Solutions Sdn Bhd

TRADING

Mecomb

Mecomb was founded in Singapore in 1953 as Mechanical and Combustion Engineering Co Ltd and subsequently incorporated in Malaysia in 1964. In 1978, Mecomb was acquired by Sime Darby Berhad. Today, Mecomb is a wholly-owned subsidiary of Sime Darby Industrial and has operations in Malaysia, Singapore and Thailand. With more than 60 years of industry experience, Mecomb is established as a trusted and reliable partner for customers to achieve the optimal utility of their assets.

Backed by a team of experienced engineers, collectively, Mecomb Singapore Limited, Mecomb Malaysia Sdn Bhd and Mecomb Thailand Limited are distributors of industrial products within SEA, representing premium brands in electrical, controls, scientific, communication and navigation products. Mecomb also offers value-added technical expertise such as automated car park systems and installation, industrial automation & system integration and pneumatic tube system.

Sime Darby Material Handling Sdn Bhd

Sime Darby Material Handling Sdn Bhd (formerly known as Tractors Material Handling Sdn Bhd) represents Hyster, a renowned and leading material equipment handling provider. Hyster offers a comprehensive range of material handling equipment, from the largest container handlers and reach stackers, to industrial forklift trucks and special warehousing equipment, among others.

ENGINEERING & TECHNICAL SERVICES

Sime Darby Energy Solutions Sdn Bhd (SDES)

Incorporated in 1964, SDES is an established systems integrator, and major products and service provider primarily for the oil and gas, petrochemical and biogas industries.

SDES range of core competencies include project management, system integration for metering skids, electrical house, automation, co-generation and chiller systems, as well as widespread solutions in the entire biogas value chain.

As one of the pioneers in setting up Malaysia's first Natural Gas Vehicle (NGV) refuelling station, SDES has today successfully installed over 33 stations and 50 compressors in Malaysia.

Since then, the company has installed and successfully commissioned its first full scale Bio-CNG plant with Felda Global Ventures Holdings Berhad (FGV) in February 2015. The project features the first plant in Malaysia to produce Bio-CNG, with a production capacity of 80,000 MMBtu per annum. With years of experience in medium to large engineering projects for both local and international clients and strategic product partnerships with leading global brands such as General Electric, Kawasaki, Emerson, Hexagon Lincoln, SAFE, Itron, Atlas Copco – Intermech, SDES offers comprehensive and sustainable engineering solutions of the highest standards.

Sime Darby Joy Industries Sdn Bhd

Formerly known as TMA-Joy Industries, Sime Darby Joy Industries Sdn Bhd (SD Joy) was established as a joint venture between Sime Darby Industrial Sdn Bhd and Joy Industries Pte Ltd in February 2002. SD Joy is headquartered in Singapore with a manufacturing plant in Johor, Malaysia.

The company also has a subsidiary office located in Shanghai, China. Specialising in the design and supply of heat exchangers, industrial radiators and process equipment, SD Joy manufactures an extensive range of standard and custom engineered products for the oil & gas, petroleum, petro-chemical, gas compression, chemical and power generation industries.

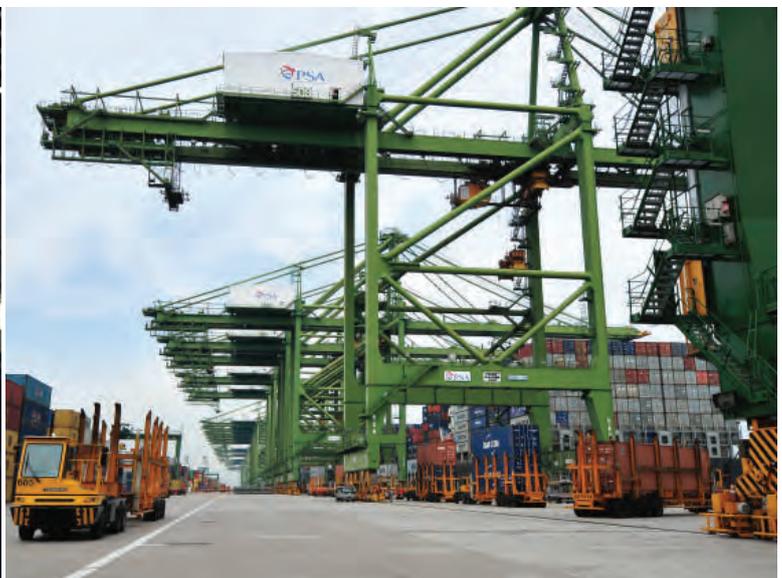

SD Joy also offers a complete range of inhouse capabilities from thermal and mechanical design, 3D modelling and project management. The company has been serving the process industry since 1988 and has been a member of Heat Transfer Research Inc. since 1992.

Industrial

INDUSTRIAL SOLUTIONS

Sime Darby Industrial distributes a variety of premium brand machines and equipment, and offers industrial solutions that cater to the needs of its customers in various industries.

Sime Darby Industrial offers premium brand industrial equipment, machinery and provides industrial solutions for various industries.

EXECUTIVE LEADERSHIP

DEAN MEHMET,
MANAGING DIRECTOR,
INDUSTRIAL DIVISION - AUSTRALASIA
AGE 56 INDUSTRY EXPERIENCE 30 years

Dean joined Hastings Deering in 2012 and leads as well as oversees the entire business across Australia, New Zealand, Papua New Guinea, Solomon Islands and New Caledonia. His key responsibilities include developing and executing organisational strategy with safety at its core, managing the operations of more than 3,000 employees across four

countries and 23 business centres, build strategic, long term relationships with customers and suppliers to establish Hastings Deering as a trusted partner and actively contribute to the communities in which we live and work. Dean has more than 30 years industry experience and has held Chief Executive Leadership roles for the past 15 years including at BlueScope Steel and Shell Australia. Dean is also a member of the Australian Institute of Company Directors.

SHIU CHI YAN,
MANAGING DIRECTOR, INDUSTRIAL
DIVISION – ASIA
AGE 55 INDUSTRY EXPERIENCE 30 years

CY Shiu was appointed the Managing Director, Industrial Division – Asia on 1 January 2020. In this role, he leads and oversees the Industrial Division in China, Hong Kong, Malaysia and Singapore. He joined CEL in 1986 and spent 23 years in various positions in Power System Division, from technical assistant, sales engineer, and project manager to general

manager. He has extensive experience in project management, sales and marketing of Caterpillar engine products in Hong Kong and China. He was transferred to heavy equipment sales in 2009 and turned around the business in both market share and profitability. He was promoted to Managing Director in 2014 and has led the company in receiving two Global Dealer Excellence awards.

LAWRENCE WONG YOW KHAN, CHIEF FINANCIAL OFFICER, INDUSTRIAL DIVISION
AGE 51 INDUSTRY EXPERIENCE 25 years

Lawrence joined Sime Darby in 2019 as the Chief Financial Officer of the Industrial Division, overseeing the financial portfolio across the division's Asia Pacific operations. Prior to joining Sime Darby, Lawrence spent 18 years with Dell Technologies, mostly in different capacities in finance and accounting and five years with Cable and Wireless plc. His stint with Dell included postings in Japan, Australia, US and Malaysia. Lawrence who holds a degree in Electrical and Electronic Engineering from the University of Surrey, started his career with KPMG UK in 1990 and is a Fellow of the Institute of Chartered Accountants in England and Wales.

ALAN OW YEW LEONG, MANAGING DIRECTOR, TRACTORS SINGAPORE AND ASIA POWER SYSTEMS
AGE 52 INDUSTRY EXPERIENCE 25 years

Before joining Tractors Singapore Limited (TSL), Alan oversaw the development of various power plant projects worth more than €50 million. At TSL, he successfully led the sales team to achieve a record \$100 million plus in sales revenue in oil & gas projects. In 2011, Alan was promoted to head the Power Systems Division as its General Manager and subsequently as its COO in 2012. In 2014, he was appointed Dealer Principal as Managing Director of TSL. With this role comes the responsibility of heading the Power Systems Divisions of China Engineers Ltd, Sime Darby Industrial Sdn Bhd and TSL. He is also the Executive Director of FG Wilson Asia Pte Ltd and an alternate director for TSL of APAC Energy Rental Pte Ltd. He was recently appointed a director of Sime Darby Elco Power Systems Ltd and China Engineers Ltd (Hong Kong) and Foshan Sime Darby Elco Power Equipment Ltd (PRC).

TEOH CY KUAN, MANAGING DIRECTOR, SIME DARBY INDUSTRIAL SDN BHD
AGE 48 INDUSTRY EXPERIENCE 11 years

Prior to CK's appointment to his current role as Managing Director of Sime Darby Industrial Sdn Bhd in December 2016, CK was the Chief Operating Officer in October 2015. Before that, he was the General Manager of the Power Systems Division from May 2014. He was also the Group Head of Procurement at Sime Darby Berhad before joining its Industrial Division. In addition to 11 years of direct industry experience, CK has over 15 years of experience in high technology manufacturing, upstream oil & gas and management consulting with notable leadership stints at Schlumberger and Accenture. CK is also a member of the Institute of Supply Management (ISM-USA). CK leads and oversees Sime Darby Industrial businesses across Malaysia, Singapore, Brunei, Thailand and Vietnam. His key responsibilities include strategy ideation & execution covering more than 40 locations with over 1500 employees with the goal of delivering class leading products and service levels to customers.

GRANT WHITELAW, CHIEF EXECUTIVE, TERRA CAT
AGE 57 INDUSTRY EXPERIENCE 35+ years

Prior to Grant Whitelaw taking up his current role as Chief Executive of Terra Cat in October 2019, he was General Manager, Business Centre Operations at Hastings Deering with responsibility for parts and service operations across four countries. Before joining Hastings Deering in 2015, he was the Chief Operating Officer for one of Hastings Deering's joint venture companies. Grant has more than 35 years of experience with Cat dealers globally and has worked in service, parts, operations, sales and marketing in various management and executive roles. Grant's current role sees him responsible for more than 500 employees in 17 branches as New Zealand's Cat dealer starts a new era with new owners Sime Darby Berhad.

EDUCATION & TRAINING

Sime Darby Industrial continues to grow and provide industry leadership through innovation and substantial investment in facilities and development of its people. Sime Darby Industrial also provides training for its customers.

Sime Darby Industrial has set up several Caterpillar certified training campuses throughout the region, offering public, technical and mechanical course in heavy equipment maintenance, repair and service. These campuses are:

- Hastings Deering Institute of Technology
- Sime Darby Industrial Academy
- China Engineers Limited Training Department
- Tractors Singapore Limited Training Department

Sime Darby Industrial Academy

Sime Darby Industrial Academy, based in Tractors Engineering Complex in Puchong, Selangor, was set up in 2002 to cater to the training needs of customers and staff. It operates as a development centre for technical and management skills.

The Academy is an approved national vocational training centre, recognised by the Skills Development department of the Ministry of Human Resources, Malaysia.

Programmes offered include:

- Heavy Equipment Operator Training recognised by the Construction Industry Development Board (CIDB), Malaysia.
- Certification of Heavy Equipment Mechanic
- Technician Programme (SKM Level 1-3)
- Certification of Motor Vehicle Automotive Mechanic
- Technician Programme (SKM Level 1-3)
- Supervisory Development Programme (SKM Level 3)
- City & Guilds (C&G) Diploma in Vehicles Maintenance and Repair

China Engineers Limited and Shunde Polytechnic-Industrial Equipment Training Centre

China Engineers Limited and Shunde Polytechnic-Industrial Equipment Training Centre collaborates with Caterpillar to offer training programmes for technical courses on heavy equipment maintenance, repair and service, and upgrading skills on servicing, sales and management. It supports CEL's in-house training needs and caters to the industrial training needs of customers, vocational institutes and the general public.

The facility's computers are linked to Caterpillar's web based learning platform. The training centre is fully equipped with hydraulic and electrical laboratories, Applied Failure Analysis (AFA) laboratory, workshops and diagnostic tools for students.

The Hastings Deering Institute of Technology

The Hastings Deering Institute of Technology provides corporate education and training programmes designed to address the needs of Queensland's mining and construction industries. Its two permanent campuses are located in Brisbane and Mackay.

It aims to deliver a consistent level of quality training, be it operator, technical, business or computer training for customers and staff. It is a Registered Training Organisation (RTO) offering training and consulting services driven by customers need for sustainable performance improvements.

Programmes offered include technical programmes for standard or customised delivery of Caterpillar equipment, standard or customised operating training packages in both Surface and Underground Metalliferous, Surface Coal Mining Operations, and apprentice training for staff and customers.

Sime Darby Industrial Academy

HISTORY

1929

Sime Darby, through Sarawak Trading Company was appointed as a Caterpillar dealer for Sarawak.

1964

Tractors Malaysia Limited was established in Singapore.

1968
